## Shipping & Marine Insurance Scholarship

Dear Marco,

Dear Dabelstein & Passehl Lawyers,

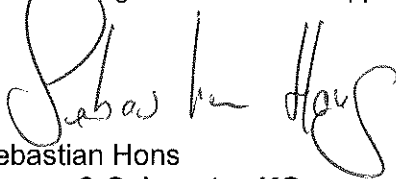

first of all I want to thank you very much for two highly interesting and intensive weeks in Hamburg, which have been extraordinary successful and enjoyable. It was your great efforts that made it such a rewarding and successful time. Thank you very much!

Having been the only German among this year's group of scholars and being from nearby Bremen one might think that Hamburg was not such an exotic destination as it may have been for other scholars arriving from all around the world. Well, that can hardly be denied. Nevertheless, I enjoyed an intensive trip to beautiful Hamburg in perfect late summer conditions. The great company, respectively all Dabelstein & Passehl staff and my fellow scholars made it even more rewarding. It was a great opportunity to meet and exchange thoughts with a group of young international practitioners in the field of maritime law.

The programme that you offered was simply astonishing. Both, in terms of its professional manner and its intensity. The various visits to market participants were highly interesting and everything else but ordinary. Visiting the various experts on different aspects of shipping, Blohm & Voss shipyard, the Hamburg harbour, the pilot station, and Swiss Re in Munich was extraordinary. Thanks to you I got the rare opportunity to see some sites and talk to some people that are usually not as easy to access. The seminars that you presented to us were very helpful and thoroughly well prepared.

Last but not least I have to say that I very much enjoyed our trip to Bremen since I happened to be not only a member of the group but also the person to give a presentation at Lampe & Schwartze in Bremen. Having the scholars around was very pleasant and I am looking forward to attend another group of scholars next year.

With kind regards and sincere appreciation,

Sebastian Hons
