The scholarship was a great experience for me, it gave me the chance to see the wonderful Hamburg city. I really enjoyed being in Hamburg very much . I also had the opportunity to build colleague relationship with the esteemed law firm of Dabelstein & Passehl Partners, Lawyers and staff, and meeting with the wonderful group of the scholars who are my friends now .

The course was very rich with subjects, theoretical information and excursions. The most enjoyable and beneficial result of scholarship granted to me is being familiar with German Law, courts and practicing shipping Law , also the excursions, visiting the central pilot station, the port terminals, Blohm + Voss, Munich Re, Bremen, insurance Brokers and Zeller associates .

The best excursions for me were Hamburg Ship Model Basin, visiting the Container ship, sailing on board and accompanying Cap. Klaus Foster during his surveying a vessel .

Finally I am very grateful to you for giving me this great opportunity, actually I feel that I have promoted a greater understanding in international practice relating to Shipping Law and Marine insurance through one of the prominent leading German law firms, with which I am looking forward to co-operate .

Best Regards

Ola El Mokadem
